

Hemant

Portfolio: hemant.lol

Github: github.com/hemantwasthere

Email: hemant.is.there@gmail.com

Skills Summary

- **Languages:** HTML, CSS, SCSS, JavaScript, TypeScript, Python, Java, SQL, GraphQL, C
- **Frameworks:** ReactJS, NextJS, NodeJS, Vue.JS, Express, Prisma, TailwindCSS, ChaiJS, Mocha
- **Tools:** Docker, Grafana, Prometheus, Loki, GIT, PostgreSQL, MySQL, Postman
- **Platforms:** Linux, Web, Windows, AWS

Experience

- **Unwrap Labs** Remote
Full Stack Developer (Full-time) July 2025 - Present
 - Currently working on building scalable blockchain applications and protocols at Unwrap Labs.
- **Unwrap Labs** Remote
Software Developer Intern Jan 2025 - June 2025
 - Developed Troves.fi (formerly STRKFarm.xyz), Starknet's leading yield aggregator, implementing complex yield strategies that achieved peak TVL of \$2M+
 - Contributed to the core development of Endur.fi, Starknet's largest LST protocol with \$22M+ (40M+ STRK tokens) peak TVL, focusing on frontend architecture and smart contract integration
 - Designed and implemented real-time analytics dashboards using Grafana, Prometheus, and Loki for monitoring protocol performance and user activity
 - Optimized frontend performance through code splitting and lazy loading, reducing initial load time by 40
 - Developed and maintained Docker containers for microservices architecture, improving deployment efficiency
 - Implemented secure wallet connection flows and transaction signing interfaces for Starknet.js integration
- **Digi-K Labs** Remote
Software Developer Intern Aug 2022 - Oct 2022
 - Worked on an **open-source** npm package in **Vue.js** with over **750+** weekly downloads
 - Innovated an **icon picker** component compatible with both **Vue 2.x** and **Vue 3.x**
 - Developed a fully-fledged website for their **form** builder tool used by many users - formstudio.io
 - Built over **40+** generic, customizable, props-driven, and fully responsive components
- **Devsnest** Remote
Frontend Developer - Mentor, Contributor Aug 2022 - Oct 2022
 - Mentored and solved doubts of over **50+** students in the Community
 - Implemented over **30+** practice questions for their recent Full Stack Developer Bootcamp
 - Tested, Debugged, and Revamped code in each question
 - Wrote over **50+** test-cases using **Chai.js** and **Mocha** to test questions
- **Hashstack** Remote
Frontend Developer Intern Mar 2024 - Jul 2024
- **A.live** Remote
ReactJS Developer Intern Sep 2022 - Dec 2022

Projects

- **Endur.fi - Starknet's Largest Liquid Staking Protocol:**
 - Developed frontend architecture for Starknet's leading LST protocol achieving \$22M+ TVL.
 - Implemented secure wallet integration with Starknet.js for seamless staking transactions
 - Designed real-time TVL and analytics dashboards using Grafana and Prometheus
 - Optimized UI components for high-performance rendering of staking positions and rewards data
- **Troves.fi - Advanced Yield Aggregator on Starknet:**
 - Built frontend interface for complex yield strategies achieving \$2M+ TVL
 - Developed interactive dashboards for strategy performance visualization
 - Implemented secure transaction flows for depositing into and claiming from yield strategies
 - Integrated with Starknet smart contracts for real-time APY calculations and position tracking
- **Supafyi - Discover, Create, and Enjoy Your Own Songs:** Developed an application imitating the Spotify design using **Next.js 13** and **TailwindCSS**. Integrated **Supabase** for user authentication and implemented secure payment transactions with **Stripe**.

Education

- **Maharaja Agrasen Institute of Technology** Delhi
Bachelor of Technology - CGPA 8.1 2021 - 2025
- **Geeta Sr. Sec. School No.2** Delhi
High School 2019 - 2021
